

Project Description

A phased project comprising construction of new wards as well as the refurbishment of the existing, active hospital. These services were created within the existing hospital footprint: a larger linen and laundry facility, medical and gas engineering facilities, a new kitchen, a maternity ward and paediatric and neonatal ICU. The facade, lift lobbies and passages were refurbished while a new 3 storey, stand alone doctors' consulting block and 3-storey wards block were constructed.

Project Profile

Contract Value:	R67 Million
Completion Date:	May 2017
Duration:	15 months
Architect(s):	Osmond Lange Architects & Planners
Engineer(s):	DLV (All trades)
PQS:	MMQS
